Fire Magic Grills and Cooking Accessories may be installed under a patio roof or other partially enclosed area if adequate ventilation is provided.

Adequate ventilation may be provided by a canopy-style hood with the CFM capacity listed below. These capacities are based on the Uniform Mechanical Code. The hood shall extend a horizontal distance of 3" inches minimum beyond the edge of the cooking surface left to right on each side, the front of the hood shall be at least flush with the front of the grilling surface and vertical distance between the bottom of the hood and the cooking surface shall not exceed 30".

As always, check with local building codes and authorities before beginning any building or remodeling project.

GRILL SIZE	MINIMUM CFM REQ'D	RECOMMENDED CFM
Deluxe	260	350
A430	300	400
A530	370	500
A540	370	500
